DETAILED ACTION

Election/Restrictions

1. Claims 3, 5-6 and 8-22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the replies filed on 5/6/2005 and 8/22/2005.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Pat. No. 6,109,010 to Heal et al.

Heal et al. discloses a modular vehicle including:

- An engine unit (portion with engine 28) with vehicular electronics (52)
- a mower unit (18) associated with mower electronics (60)
- a communications link (electric lines in Fig. 4 that include switch 58) between the vehicular electronics and the mower electronics that transmits status data (status data is considered to be the operating status of the blade) associated with the mower unit

Art Unit: 3671

- a controller (40) programmed to stop the blade when a deficient communications channel (considered to be when switch 58 is open) is associated with the communications link.

Allowable Subject Matter

4. Claims 2, 4 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
